BORACOL 100RH FUNGICIDE

ACTIVE CONSTITUENTS: 23 g/L BORON (B) present as DISODIUM
OCTABORATE TETRAHYDRATE
22 g/L BENZALKONIUM CHLORIDE

SOLVENT: 109 g/L MONOETHYLENE GLYCOL

FOR THE TREATMENT OF SURFACES ATTACKED OR SUSCEPTIBLE TO
MOULD, ALGAE, FUNGUS, LICHEN AND MOSS ETC. SUITABLE FOR
TIMBER, BRICKWORK, CONCRETE ETC. OR OTHER SURFACES WHERE
ERADICATION AND/OR RESIDUAL ACTION IS REQUIRED.

CONTENTS: 1L / 3L / 5L / 10L / 20L / 25L / 50L / 200L / 250L / 1000L

DIRECTIONS FOR USE

RESTRAINTS

NOT TO BE USED on surfaces which come into direct contact with foodstuffs.

NOT TO BE USED on roofs for collection of potable water.

NOT TO BE USED on surfaces which come into direct contact with the ground.

GENERAL INSTRUCTIONS

BORACOL 100RH is effective in controlling surface mould, algae, fungi, lichen and moss. Applications include marinas, decking, pool surrounds, roofs, fences, walls or any other surfaces where damp conditions favour growth of attacking organisms.

BORACOL 100RH used at the recommended rate will give a residual effect which will help prevent re-infestation. The residual effect of BORACOL 100RH will be enhanced if the applied surface is sealed with a sealer such as a water repellent/paint/varnish etc.

BORACOL 100RH is supplied ready for use. Surfaces with excessively heavy infestation should be given a preliminary clean-down using a high pressure water spray or a stiff brush.

BORACOL 100RH, after correct application, may require up to 48 hours to destroy the attacking organisms. It is then recommended that the surface is brushed to remove

dead material prior to sealing. BORACOL 100RH can be applied to either dry or damp surfaces.

APPLICATION TABLE

BORACOL 100RH can be applied by brush, roller, dipping or spraying.

SITUATION	STATES	RECOMMENDATION
Timber, concrete, brickwork, masonry, asbestos, cement render, roofs	ALL STATES	Dependent on surface porosity 160-500mL per square metre (2-6 square metres per litre).

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in original closed container in a dry, cool, well ventilated area. Do not store for long periods in direct sunlight. DO NOT use the container for any other purpose. Triple or preferably pressure rinse containers before disposal. Dispose of rinsings in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots.

(For All Pack Sizes except 1000L)

Break, crush or puncture and bury containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit. Empty containers and product should not be burnt.

(For 1000L Packsize)

Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

Will irritate the eyes, nose and throat and skin. Avoid contact with eyes and skin. Do not inhale spray mist. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

If swallowed, and if more than 15 minutes from a hospital, induce vomiting preferably using Ipecac Syrup APF.

Additional information is listed in the Material Safety Data Sheet

CONDITIONS OF SALE
