

Modernise your spray equipment

Rega to B&G Adaptor

The Rega Adaptor for the B&G Pressurised Tank Top is custom-designed to bridge the gap between your Rega Spray Unit and the new battery-powered B&G Pressurising Tank Top, allowing for a seamless and efficient upgrade. This precision-engineered adaptor makes it possible to install the B&G Pressurising Tank on your Rega Spray Unit, unlocking the full potential of your spraying equipment.

How to install Rega to B&G PTT Adaptor

RGBGPPT

1. Attach the adaptor

Attach the B&G PTT adaptor to your Rega Spray Unit by hand screwing the adaptor securely into place.

2. Fit the B&G PTT.

After connecting the adaptor to the spray tank, proceed by screwing the B&G PTT into the adaptor.

3. Ready to use

You are all set up and prepared to use your sprayer. Refer to the B&G PTT user guide for instructions.
